

Call for Interns in Meghalaya, India

SCI-FI, CPR is looking for three interns for a period of 7 -10 days (each) from a period of third week of May 2023 to first week of June 2023 to conduct a short duration qualitative field work for a research project on “**Study on institutional assessment and scheme/program review in Meghalaya (India)**”.

The research project aims to evaluate institutions and programs in Meghalaya, specifically targeting adolescent health and education. The field researcher must possess experience in research and implementation of programs in the development sector, coupled with a strong background in social work and community engagement. Further, the field researcher must be based in Meghalaya and possess the ability to travel within the State. The key responsibilities would include:

- Conducting field interviews with relevant stakeholders.
- Support in analyzing findings and preparing comprehensive field notes.

Fluency in Garo/ Khasi/ Jaintia, and English is required for effective communication and understanding within the community.

Those who are interested should apply through <https://forms.gle/BRjdtGyAZ8RjLFTf7>
