

Call for Senior Field Consultant in Karnataka

About Accountability Initiative (AI)

We are a research group which works on strengthening transparency and accountability in governance. We identify and analyse the reasons that work against efficient public service delivery in India. We provide evidence to policymakers, development practitioners, academics, the media and the public for positive transformational change in government systems.

Our vision is to enable Responsive Governance. We believe this can be achieved if institutions are designed in a transparent and accountable manner and are responsive to citizen demands, and there is an informed and mobilised citizenry which can draw upon these platforms. Our mission is to increase both through research and dialogue.

We are a part of the Centre for Policy Research (CPR), one of India's leading public policy think tanks. We currently have operations and staff in six Indian states.

About the project

Accountability Initiative has partnered with the Rural Development and Panchayat Raj Department, Government of Karnataka to conduct two research studies. The first study maps and analyses the competencies of Gram Panchayat functionaries to conduct their daily tasks that involve digital tools. The second study unpacks the conditions that enable efficient convergence between Gram Panchayats and line departments in sectors such as health, waste management, gender and education.

This position is a Senior Field Consultancy for 2 months starting June 2024 and based in Bangalore, Karnataka with travel across the state. Fluency of Kannada is mandatory. The consultancy pay will be determined based on experience and level of education.
